

Guidelines for Poster Sessions

General Information

1. All posters must be displayed for the duration of the assigned poster session. Authors are required to spend one hour at the poster to answer questions and/or participate in discussions. You must be available for questioning and/or participation for one hour (For example, if your session is 8:00 AM – 12:00 PM, your participation time is 11:00 AM – 12:00 PM; if your session time is 1:00 PM – 5:00 PM, your participation time is 1:00 PM – 2:00 PM). Please arrive at the poster session room 30 minutes before the start of the session to post your materials. Posters must be completely dismantled at the conclusion of the session. If the person you have designated to present your paper does not show up for your scheduled presentation time AAPS will impose a \$200 publishing fee.
2. Bring only items which can be mounted on poster board or placed on the table-top counter which will be available. No electrical projection capabilities will be available.
3. All items for posting must be prepared in advance. Graphic supplies will not be available.
4. Your poster number will be supplied by AAPS.

Content of Presentations

1. Keep the oral information content to a minimum so you need to "relay" very little. Depend on your visual aids rather than giving an oral presentation.
2. Each poster should have the following:
 - a. Title page (or large card) in bold print listing PAPER TITLE and NAME(S) of AUTHOR(S).
 - b. Page (or large card) listing OBJECTIVES of the study. For the sake of clarity, these should be brief and preferable in the form of a short sentence. In case of multiple objectives, they should be listed in order of decreasing importance.

The diagram illustrates a poster board layout on a red table. The poster board is blue and contains several sections: a title bar at the top, an objectives section on the left, a methodology section in the center, a results section on the right, and a conclusions section at the bottom right. There are also illustrations of laboratory glassware and chemical structures. Numbered callouts (1-7) point to specific elements: 1. Assigned poster number (27); 2. Title label; 3. Methodology section; 4. Objectives section; 5. Laboratory glassware illustration; 6. Conclusions section; 7. Printed materials on the table.

1. Assigned poster number.
2. Provide a label (sign) listing the title of the paper and name(s) of author(s) to identify your presentation easily.
3. Prepare and bring with you all illustrations needed for your presentation (figures, tables, photographs, printed materials, etc.). Mount label and illustrations on the poster board by means of thumb tacks or pins only. Do not use tape or other adhesive materials, nor write or mark on the poster board. AAPS is responsible for supplying push pins.

4. Poster board is 8 feet wide by 4 feet high.
5. Mounting Surface (usable space) is 7'10" wide by 3'10" high.
6. Two display boards are mounted back-to-back on draped table.
7. Handout materials may be placed on table-top at base of poster board.
